Reached Adequately Comments

Trip Comments: Had students study map during the week. Called all of them and discussed the map and assigned map bearings to take. Students described route they thought might work out. Students navigated the trip. \_\_\_ taught them to compare their location to the map frequently. Long happy lunch on steep slope above lake. Long visit on summit with many pictures. Easy scramble and good learning area due to the many handrails available at a ski area. Long fun glissade x 2.
