Sun - sunny, clear, mostly breezy, temp. ranged from freezing in a.m. to '80's during the afternoon.

ACCIDENT INVOLVED: NO YES (SUBMIT ACCIDENT REPORT)

TRIP NARRATION/COMMENTS (ABOUT CONDITIONING AND SKILLS WHEN INADEQUATE):

Great scramble with good bunch of people all fairly well matched. Best alissade ever on this mountain or elsewhere! Needed crampons on ascent to summit.

Have to register and get wilderness permit at Ranger Station in Trout Lake and sign out upon return.

Driving - best to take I-5 to 205 to Hwy 14 (Washington side of Columbia R.) to 141. Follow forest service road 80 to 8040, to Cold Springs Campground. The last 5 miles is on a very eroded, rutted, dirt road. 4w/1 came in handy for everyone. Don't take a really nice vehicle or one with low suspension.
