Terrain Encountered: Rock Snow Brush
 Equipment Recommended: Hardhat Crampons Rope

Weather Conditions: Broken clouds, some mist, comfortable temp

Was a handline used? Yes No (If Yes, describe circumstances)

Accident Involved? Yes No (If Yes, submit an accident report)

Trip Narrative/Comments (about skills and conditioning of students):

There is no apparent trail leading to the ridge or any where else. The snow line has melted back quickly in recent days, leaving the upper reaches of the slope slippery. Snow was encounter about 4300' which made reaching the summit OK.

To Gain the ridge crest try to keep a bearing of SE you should reach the ridge @ about 4400'.
